

SCIP DATABASE

SCIP is the EU database for information on Substances of Concern In Products (articles) as such or in complex objects established under the EU Waste Framework Directive (WFD). The SCIP database ensures that the information on articles containing Candidate List substances is available throughout the whole lifecycle of products and materials, including at the waste stage. The information in the database is made available to waste operators and consumers.

For more information please visit the website of the European Chemicals Agency (ECHA) in Helsinki, Finland, and search for "SCIP": <https://echa.europa.eu/scip-database>

Oras Group provided the necessary data to ECHA respectively into the SCIP database in time.

Please see below this information the SCIP numbers of the Oras Group product portfolio and per Oras Group legal entity in the EU.

Quasi-identical articles and complex objects (products) can be grouped in the same SCIP notification. Oras Group applied this approach due to the similarity of many Oras Group articles/products.

Oras Group customers can use these SCIP numbers to prepare "Simplified SCIP Notifications (SSN)" respectively use "Referencing" for own SCIP notifications.

SCIP number Oras brand products: **a69f1275-5588-49a9-a505-1e44db4968d e**

SCIP number Hansa brand products: **bd66cd46-d88d-47f3-905f-1dd9b6d15a45**
